# Architas Global Equity Fund

a Sub-Fund of **Architas Multi-Manager Global Funds Unit Trust Institutional Class I (JPY) Units (IE00BLFJCG89)**

*This Fund is managed by Architas Multi-Manager Europe Limited, part of the AXA Group*

## Objectives and Investment Policy

The aim of the Fund is to provide investors with long-term capital growth.

The Fund is actively managed and will invest in a diversified portfolio of equities by investing in other funds (underlying funds) and by investing directly.

The underlying funds will be invested in shares and share-related securities and may also invest in other asset classes such as fixed-income securities, cash and derivatives. Underlying funds are selected principally on the basis of our assessment of: the consistency of their investment returns; the risks related to their strategy; the strength of their investment process; and the degree to which they complement each other within the portfolio.

The direct investments may include shares, share-related securities, cash and money market instruments.

The Fund is not subject to any limitation on the portion of its assets that may be invested in any one country, region, sector or asset class.

The Fund is measured against the MSCI World Net Return benchmark. The Investment Manager has the freedom to invest in securities that are not part of the benchmark.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

We will automatically include income from the Fund's investments in the value of your units.

You may sell your investment on a daily basis.

The base currency of the Fund is JPY.

## Risk and Reward Profile

This risk indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The lowest category does not mean risk free.

The risk and reward category may shift over time and is not guaranteed.

Your investment in the Fund is not guaranteed. The Fund is invested in financial assets and instruments and uses financial techniques that are subject to levels of variation, that may result in gains or losses.

The following are additional risks not covered by the risk and reward category:

**Counterparty Risk:** The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

**Fund of Funds - Liquidity Risk:** The Fund invests in other funds and its liquidity depends upon the liquidity of those underlying funds. If underlying funds suspend or defer the payment of redemption proceeds, the Fund's ability to meet redemption requests may also be affected.

**Investment Manager/Sub-Investment Manager Risk:** The Fund relies upon the performance of one or more investment managers. If the investment managers perform poorly, the value of the Fund and your investment is likely to be adversely affected.

**Currency Risk:** The Fund invests in overseas markets and the value of the Fund may fall or rise as a result of changes in exchange rates.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.
