E.P.I.C. Global Equity Opportunities Fund

a Sub-Fund of **Architas Multi-Manager Global Managed Funds Unit Trust**
Zero Class Z (USD) Units (IE0007LSHB40)

This Fund is managed by Architas Multi-Manager Europe Limited, part of the AXA Group

Objectives and Investment Policy

The investment objective of the Fund is to seek to provide long-term growth of capital with a medium to high volatility level from a diversified and actively managed portfolio of securities with a focus on "Sustainable Investments" as defined in the fund supplement.

The Fund is an actively managed fund of funds.

The Fund pursues its aim mainly by investing in other funds ("underlying funds").

Underlying funds are selected principally on the basis of our assessment of: focus on "Sustainable Investments", the consistency of their investment returns; the risks related to their strategy; the strength of their investment process; and the degree to which they complement each other within the portfolio.

The underlying funds in which the Fund will invest in may be either passively or actively managed.

The underlying funds may invest in the following types of instrument: shares and share related securities (bank certificates representing a specified number of shares in a company).

The underlying funds may also invest in tradable debt which can be easily converted into cash (money-market instruments) and other asset classes: including financial contracts (financial derivative instruments – "FDI"); financial indices and/or currencies.

The Fund may also invest directly in financial instruments including: shares; share-related securities and money-market instruments.

The Fund is not subject to any limitation on the proportion of its net assets that may be invested in any one country, region or sector.

The Fund may invest in FDI to achieve the investment objective, to reduce risk or manage the Fund more efficiently.

The Fund does not intend to use FDI extensively or primarily for investment purposes.

The Fund does not have a benchmark.

We will automatically include income from the Fund's investments in the value of your units.

You may sell your investment on a daily basis.

The base currency of the Fund is USD.

Risk and Reward Profile

This risk indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The lowest category does not mean risk free.

The risk and reward category may shift over time and is not guaranteed.

Your investment in the Fund is not guaranteed. The Fund is invested in financial assets and instruments and uses financial techniques that are subject to levels of variation, that may result in gains or losses.

Funds of category 6 have shown in the past a medium to high volatility. The volatility describes how much the value of the fund went up and down in the past. The units of a fund of category 6 might be subject to medium to high price fluctuations based on the historical volatility observed.

The following are additional risks not covered by the risk and reward category:

Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Fund of Funds - Liquidity Risk: The Fund invests in other funds and its liquidity depends upon the liquidity of those underlying funds. If underlying funds suspend or defer the payment of redemption proceeds, the Fund's ability to meet redemption requests may also be affected.

Emerging Markets: The Fund may invest in less economically developed markets (emerging markets) which can involve greater risks than well developed economies. Amongst other issues, political unrest and economic downturn may be more likely and could affect the value of the Fund and your investment.

Derivatives Risk: The Fund may use derivatives in an attempt to reduce risk (hedging) or for investment purposes. It may be that the use of derivatives causes share prices to fluctuate which may in turn result in the Fund and your investment suffering a loss.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	3.00%

This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).

Charges taken from the Fund over a year

Ongoing charge	1.25%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	none
-----------------	------

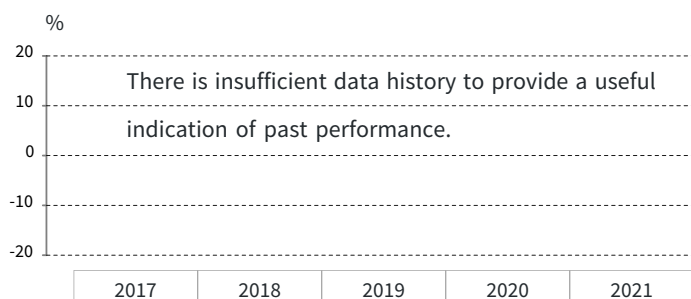

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your financial adviser or distributor.

The ongoing charges figure shown here is an estimate of the annualised charges. An estimate is being used because the Fund (or unit class) was newly launched or it has been launched within the reported period. The Fund's annual report for each financial year will include detail on the exact charges made. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another fund.

For more information about charges, please see the section entitled "Fees and Expenses" in the Fund's prospectus and supplement, each of which are available on request free of charge from the manager.

Past Performance

Past performance is not a reliable indicator of future performance.

The past performance shown here takes account of ongoing charges. The entry/exit fees are excluded from the calculation of past performance.

The Fund is not yet launched.
